

Intensive Course on Clinical Skills and Simulation-Based Learning for Pregraduate Medical Students

Day 1

09:00 - 09:30 Registration

09:30 - 10:00 Course Opening and Welcome Address

10:00 - 11:00 Programme Overview and Get-to-know

11:00 - 12:00 Presentation of the Faculty of Medicine, Clinical Skills Laboratory, and Simulation Center

12:00 - 13:00 Introductory Lecture on the Importance of Clinical Examination in Modern Med

13:00 - 14:30 Lunch Break

14:30 - 15:30 Lecture on the Basics of ECG

15:30 - 16:30 Lecture on the ABCDE Approach

16:30 - 17:00 Summary of Day 1

Day 2

09:00 - 10:00 Lecture on Blood Smear Interpretation

10:00 - 11:00 Group Work (daily group rotation) – Clinical Skills Training: Venous Cannulation, Arterial Blood Sampling, Urinary Catheter Placement, Bedside Ultrasound Examination

11:00 - 12:00 Group Work – ECG in Clinical Practice

12:00 - 13:00 Group Work – Feedback on ECG Workshop

13:00 - 14:30 Lunch Break

14:30 - 15:30 Group Work – ABCDE Approach Simulation

15:30 - 16:30 Group Work – Feedback on Simulation

16:30 - 17:00 Summary of Day 2

Day 3

09:00 - 10:00 Lecture on Acute Coronary Syndrome

10:00 - 11:00 Group Work (daily group rotation) – Clinical Skills Training: Venous Cannulation, Arterial Blood Sampling, Urinary Catheter Placement, Bedside Ultrasound Examination

11:00 - 12:00 Group Work – Acute Coronary Syndrome Simulation

12:00 - 13:00 Group Work – Feedback on Simulation

13:00 - 14:30 Lunch Break

14:30 - 15:30 Group Work – Arrhythmia Management Simulation

15:30 - 16:30 Group Work – Feedback on Simulation

16:30 - 17:00 Summary of Day 3

Day 4

09:00 - 10:00 Lecture on Chest X-ray Interpretation

10:00 - 11:00 Group Work (daily group rotation) – Clinical Skills Training: Venous Cannulation, Arterial Blood Sampling, Urinary Catheter Placement, Bedside Ultrasound Examination

11:00 - 12:00 Group Work – Pulmonary Embolism Management Simulation

12:00 - 13:00 Group Work – Feedback on Simulation

13:00 - 14:30 Lunch Break

14:30 - 15:30 Group Work – Sepsis Management Simulation

15:30 - 16:30 Group Work – Feedback on Simulation

16:30 - 17:00 Summary of Day 4

Day 5

09:00 - 10:00 Lecture on Urine Analysis

10:00 - 11:00 Group Work (daily group rotation) – Clinical Skills Training: Venous Cannulation, Arterial Blood Sampling, Urinary Catheter Placement, Bedside Ultrasound Examination

11:00 - 12:00 Group Work – Presentation of Advanced Procedures in Internal Medicine

12:00 - 13:00 Group Work – Discussion on Advanced Procedures

13:00 - 14:30 Lunch Break

14:30 - 15:30 Course Summary and General Feedback

15:30 - 16:30 Final Exam

16:30 - 17:00 Course Closing
