INTERNATIONAL HOSPITAL MANAGEMENT COURSE

Graz, Vienna – Austria
August 22 – 26, 2016

The International Hospital Management Course

represents a condensed one-week course of our MBA in Health Care and Hospital Management. It is based on **20 years** of experience in training hospital experts in a multi-professional group.

It combines special **lectures on actual topics** of modern hospital management with a visiting program of **three big Austrian hospitals** in the cities of Graz and Vienna. Case studies and **round table discussions** should reflect the different views of national and international perspectives.

Main topics

- ▶ Hospital management comprehensive
- ▶ Hospital architecture
- ▶ Design and construction
- ▶ International perspectives
- ▶ DRGs
- ▶ The role of hospitals in national health care
- ▶ Hospital visiting tours

Sightseeing in Graz and Vienna

- ▶ Graz: Cultural Capital of Europe 2003, UNESCO World Cultural Heritage, UNESCO City of Design
- ▶ Vienna: culturally rich and diverse capital city, with the opera, classical concerts, ballet, Schönbrunn Palace and numerous museums and art galleries
- ▶ Optional pre- or post course tour to the culturally rich cities Vienna and Salzburg and to Danube Valley

Target groups

Hospital and health care professionals in leading positions or applying for

Accreditation/Certification

As this program is offered by the Medical University of Graz, it is covered by academic accreditation.

Upon successful completion of this course participants will receive an official certificate from the Medical University of Graz Postgraduate School.

Nobel Prize winners & internationally renowned researchers

The Medical University of Graz has a long tradition of successful and internationally renowned research, which is shown by the fact that three Nobel Prize winners conducted research in its institutes and clinics:

- ▶ Fritz Pregl: 1923 Nobel Prize in Chemistry
- ▶ Julius Wagner von Jauregg: 1927 Nobel Prize in Medicine
- ▶ Otto Loewi: 1936 Nobel Prize in Medicine

Our main areas of research

- ▶ Neurosciences
- ▶ Neoplasia research (cancer research)
- ▶ Pregnancy and fertility
- ▶ Skin diseases
- ▶ Paediatrics and adolescence medicine
- ▶ Cardiovascular diseases

The City of Graz

- ▶ Graz, the cultural capital of Europe in 2003, is the second biggest city in Austria with approximately 300,000 inhabitants. The safe and culturally rich city has become a university city with about 60,000 students and is only about 200 kilometers south of the capital Vienna.
- ▶ The historical downtown and Eggenberg Palace are UNESCO-World Cultural Heritage sites. Graz has been a UNESCO “City of Design” and part of the “Creative Cities Network” since March 2011 – there are only ten other cities in the world who have received this distinction.
- ▶ Graz offers a high quality of life with the southern flair of its narrow alleys and open squares.

The City of Vienna

- ▶ Vienna is the capital city of Austria and also one of nine Austrian federal states. With about 1.8 Million inhabitants it is the most heavily populated city in Austria, known for its coffee and historical architecture.
- ▶ Several times, Vienna ranked number one as the world's best place to live.
- ▶ Vienna is an international congress and meeting location and seat of many international organizations. Due to its political and international importance, Vienna is considered a global city.
- ▶ The historical downtown and Schönbrunn Palace are UNESCO-World Cultural Heritage sites.
